

Jens Becker & Karcher

Mr. Becker was born in Sao Paulo, Brazil and majored in Economics at the Wolfgang Goethe University of Frankfurt. He has served as CEO in CRUSE ever since 2008.

Mr. Karcher, the Research & Development Director of Cruse, is one of Cruse's experts and creative thinkers who is responsible for continuous innovation in the scanner market.

Lecture: Application of High Resolution Digitization in Conservation of Cultural Relics

Cruse is well-known for their famous scanning technology and market leader in contactless digitalization of templates over the A0 size. The Cruse quality is highly appreciated among experts and international benchmark for the scanning and reproduction of large size originals. As their claim says, Cruse simply loves reality. Cruse Scanner has sold more than 600 scanner to top museums and many industries related to reproduction worldwide. Besides their Bestseller Products Cruse ST & Walls Scanner, Cruse will launch new products in 2016 to digitalize heritage artifacts and objects.

In this presentation, Mr. Jens Becker and Mr. Karcher will share the topics as listed below:
