13 October 2017

Dear JUPAS Applicants,

JS1207 Department of Mechanical and Biomedical Engineering
(options: BEng Biomedical Engineering, BEng Mechanical Engineering, BEng Nuclear and Risk Engineering)

1. We write to inform you that the Bachelor of Engineering in Nuclear and Risk Engineering (BEngNRE) (JS1692) programme will be included as one of the major options along with the Department’s two other majors under the Department of Mechanical and Biomedical Engineering (options: BEng Biomedical Engineering, BEng Mechanical Engineering, BEng Nuclear and Risk Engineering) (JS1207) programme.

2. Students admitted into the Department of Mechanical and Biomedical Engineering will be allocated into one of its majors after their first year of study, among which the top 40% of students (subject to criteria set by the university) will have free choice of the majors offered by the Department.

3. After the inclusion of JS1692 into JS1207, the entrance requirements and admission arrangements will follow those of JS1207.

4. The intake quota for JS1692 will subsequently be transferred to JS1207 which adds up to 130.

5. The career prospect of the first cohort of BEngNRE graduates has been encouraging, with a starting monthly salary of about $16,500 and the majority of graduates receiving a job offer before June, while three students pursued further studies at CityU and HKUST, and another one in Canada.

6. For more information about the majors offers by the Department of Mechanical and Biomedical Engineering, please visit the website at www.cityu.edu.hk/mb.

Yours sincerely,

Department of Mechanical and Biomedical Engineering
