

2018 INTERNATIONAL SYMPOSIUM ON NANOBIOTECHNOLOGY, BIOSENSORS AND BIOCHIPS

The 2018 International Symposium on NanoBiotechnology, Biosensors and Biochips

held from 13-14 December 2018 at City University of Hong Kong is to bring to the attention of the professional community, academic researchers and industrial practitioners about innovations to have important impact on NanoBiotechnology, Biosensors and Biochips; and to promote the mission for the development and applications of NanoBiotechnology, Biosensors and Biochips for the benefit of mankind. We would also like to provide opportunities for training of the younger generations, and networking to foster collaborations among faculty members, research staff and students, as well as external experts in the field.

Date : 13 & 14 December 2018

**Venue : Senate Room, 19/F Lau Ming Wai Academic Building,
City University of Hong Kong**
