Part II Course Details

1. Abstract

The aim of this course is to enable students to demonstrate their ability to develop, plan and execute psychological research. It is designed to foster independent thinking and to encourage academic debate on significant issues and principles of psychological research via individual supervision.

2. Course Intended Learning Outcomes (CILOs)

(CILOs state what the student is expected to be able to do at the end of the course according to a given standard of performance.)

No.	CILOs	Weighting (if applicable)	Discovery-enriched curriculum related learning outcomes (please tick where appropriate)		
			A1	A2	A3
1.	design and carry out psychological research under supervision;	30%	✓	✓	✓
2.	integrate knowledge of psychological theories and research skills into the planning, design and implementation of their research; and	40%	✓	✓	✓
3.	communicate effectively findings of psychological research in a scientific manner.	30%	✓	✓	
		100%			

A1: Attitude

Develop an attitude of discovery/innovation/creativity, as demonstrated by students possessing a strong sense of curiosity, asking questions actively, challenging assumptions or engaging in inquiry together with teachers.

A2: Ability

Develop the ability/skill needed to discover/innovate/create, as demonstrated by students possessing critical thinking skills to assess ideas, acquiring research skills, synthesizing knowledge across disciplines or applying academic knowledge to self-life problems.

A3: Accomplishments

Demonstrate accomplishment of discovery/innovation/creativity through producing /constructing creative works/new artefacts, effective solutions to real-life problems or new processes.

3. Teaching and Learning Activities (TLAs)

(TLAs designed to facilitate students' achievement of the CILOs.)

TLA	Brief Description	CILO No.						Hours/week (if applicable)
		1	2	3				
Supervision	Students learn to integrate knowledge in psychological theories and research to formulate their own research questions/hypotheses via individual supervision sessions In addition, students conducting	✓	✓	✓				

	similar research will meet with their supervisor in a group to report progress of their research and discuss issues of common concern.							
Consultation sessions	Consultations on methodological, statistical and other technical issues will be provided by instructors/tutors. These sessions are expected to provide students with the guidance that enable them to process, analyze and interpret findings of their research in the most effective and accurate manner	✓	✓					
Research seminars	Two 2-hour research seminars will be organized for all FYP students in each regular semester		✓	✓				

Note:

SS5798 and SS5798B are equivalent courses. The courses are designated for students in different modes of study. These courses cannot be repeated. Once started, switching between SS5798 and SS5798B is not allowed regardless of the changes in the mode of study.

SS5798

Students of the part-time/combined study mode are required to take SS5798. The normal duration of the course is 2 semesters (Semester A & Semester B). The maximum extension duration of the course is 3 semesters (Summer term, Semester A & Semester B). After which no further extension is permitted. Each semester is charged 3 credits and summer term is charged 1 credit.

SS5798B

Students of the full-time study mode are required to take SS5798B. The normal duration of the course is 2 semesters (Semester B & Summer). The maximum extension duration of the course is 1 semester (Semester A). After which no further extension is permitted. Each semester is charged 3 credits.

4. Assessment Tasks/Activities (ATs)

(ATs are designed to assess how well the students achieve the CILOs.)

Assessment Tasks/Activities	CILO No.					Weighting	Remarks

5. Assessment Rubrics

(Grading of student achievements is based on student performance in assessment tasks/activities with the following rubrics.)

Assessment Task	Criterion	Excellent (A+, A, A-)	Good (B+, B, B-)	Fair (C+, C, C-)	Marginal (D)	Failure (F)
1. Research Report (100%)	Ability to develop, plan and execute psychological research. Effective communication of the findings.	Strong evidence for the ability to develop, plan and execute psychological research. Strong evidence for effective communication of the findings.	Good evidence for the ability to develop, plan and execute psychological research. Good evidence for effective communication of the findings.	Fair evidence for the ability to develop, plan and execute psychological research. Fair evidence for effective communication of the findings.	Limited evidence for the ability to develop, plan and execute psychological research. Limited evidence for effective communication of the findings.	Insufficient evidence for the ability to develop, plan and execute psychological research. Insufficient evidence for effective communication of the findings.
