

Wong King Fai

Graduate of Associate of Social Science in Social Work in 2007

Student of Bachelor of Social Science (Hons) in Social Work in City University of Hong Kong

The Associate of Social Science programme in Social Work is supported by a big and warm family of helpful teachers and enthusiastic students. The programme provides us with lots of meaningful experiences as well as opportunities for reflection, which help us understand ourselves more and equip us with the knowledge and skills for serving as social workers. We also learn to put our concern for the needy into action, bringing happiness and well-being to our community.
