

Mrs Fanny Liu Lo Wai-ching

Mrs Liu has had more than 20 years' experience teaching at the City University of Hong Kong. Following completion of her studies at the Chinese University of Hong Kong, Mrs Liu began outreaching social work for young people with the Boys & Girls Clubs Association of Hong Kong and helped marginalized youth getting their life back. She later obtained a Masters degree at the University of Hong Kong in social work. About two years' experience as a superintendant of a boys' home on Lantau Island was added to her portfolio before joining the City Polytechnic (forerunner of City University). She received a College Award of Contribution to Teaching & Learning and was for about five years in charge of the Student Mentoring Scheme in the Division of Social Studies at the Community College of City University.

“Just like being a social worker, it gives me tremendous satisfaction as a teacher to help our students achieving their own breakthroughs in life, to see their development take flight and master their own destinies with confidence. As a teacher, we must constantly renew ourselves with the latest knowledge in the field, and respect every student as an adult. We must also lead by example, and not being afraid to blaze new trails by pushing that frontier of knowledge and develop new courses in collaboration with industry,” said Mrs Liu.
