

Miss YAM Yuet Man, Regene

Graduate of Associate of Business Administration in General Management (2010)

Now a student of Bachelor of Business Administration (Honours) in Marketing, City University of Hong Kong

CCCU has given me a supportive environment to learn and explore my own interests and potential. The teachers here are supportive and give students unconditional love and help. They are not only willing to guide students through the assignment and projects but also provide valuable advice on their further studies and career planning. Here in CCCU, we learnt to solve problems, to face adversities with courage, to think analytically, and above all, to build lifelong friendships.
