

Division of Computer Studies

Stephen Hon Kwong Shing

Graduate of Associate of Science in Network and Systems Administration in 2009

The two-year study at CCCU in the ASc Network and Systems Administration programme has not only given me the most precious opportunity for learning, but also for enhancing my capabilities in different areas. The academic training during those two years had been very professional and has greatly enriched my knowledge in the areas of networking and systems administration, making it possible for me to also further my study currently at the Hong Kong University of Science and Technology. CCCU also secured for me a chance for job placement at a renowned insurance company during last summer, and has provided me numerous opportunities to demonstrate my abilities which led to my achievement of a number of awards outside school. I would also never forget my teachers who are not only my academic instructors but also my friends who have made inestimable contributions in my life.
