

Tse Yin Ting, Natalie

Graduate of Associate of Business Administration (China Business Management) in 2006

Student of BA (Hons) International Business Management, Oxford Brookes University

My two years' study in the Associate Degree programme was very rewarding. The College has offered me a chance to study in Shanghai. The cultural experience I have gained has enabled me to learn the life style and the study modes in Shanghai, which I think I could not have learnt through reading books. My two years' study in the College has proven that I made the right choice a few years ago..
