

Chong Yan Kiu (AABCS-JE 2006 cohort)

I cannot believe I can communicate in Japanese now! I feel grateful to my teachers for their excellent teaching. I did not have any knowledge about Japanese when I joined this programme but I could speak Japanese fluently after one year. The process of learning Japanese isn't as hard as you imagine, all I had to do was to pay attention during the lectures and did some revision at home. I believe that my future will be a bright one because I can speak both Japanese and English well.

This is the first time I have worn a Kimono!
