06-07 Pre-Associate Degree Programme

07-Present Associate of Social Science in Public Administration and Management

The year I spent studying in the Pre-Associate Degree Program was unforgettable. There were joys as well as challenges. Even though sometimes we needed to spend days and nights on projects and assignments, we never felt tired or bored because we knew that the results would be fruitful. Through the diversified choice of subjects offered, I have acquired the required knowledge and skills to prepare myself for my future study and career. I am glad that I have chosen Pre-Associate Degree Program to start off my college life.
