

**Tam Wai Lam, William**

**Graduate of Associate of Science in Creative and Interactive Media Production in 2008**

**Student of Bachelor of Science (Honors) in Creative Media, City University of Hong Kong**

I am extremely grateful to the Community College of City University for providing me with a rewarding learning experience. The professional teaching in creative media and interactive media development has given me lots of chances in diverse practices in the area of media production. The programme has also provided me with many opportunities to participate in various contests and overseas activities. It has enabled me to interact with teachers who are all professional and experienced. I have also made many friends during my study here. What's more, the programme has prepared me well for further studies. Upon completion of the programme, I will continue to pursue my study in City University. My heartfelt thanks to the Community College!
