

Cheung Kit Fung

Graduate of Associate of Social Science in 2008

Year 2 Student of Bachelor of Social Science (Honours) in Policy Studies and Administration, City University of Hong Kong

The knowledge in Social Science I have gained in the last two years has helped me to build up a solid foundation in this field of study. The basic knowledge, especially in Politics and Sociology, is useful in my further study. Also, the teachers of Associate of Social Science are professional, experienced and willing to help us with our academic problems. A million thanks to them!
