

Ho Po Yan

Graduate of Associate of Social Science in Public Administration and Management in 2008

Year 2 Student of Bachelor of Social Science in Public and Social Administration, City University of Hong Kong

The learning experience I have acquired in the Associate of Social Science in Public Administration and Management is really wonderful. The programme provides me a lot of opportunities for deepening my theoretical knowledge of public administration. The comprehensive curriculum equips me with a critical mind for analyzing government and social issues. Through the summer internship, furthermore, I have also been given chances to expose myself to various practical skills in performing administration duties in the working place. Being trained to integrate knowledge with skills in the programme, I have come to appreciate what whole person development is meant to be.

All in all, the wonderful learning journey I have taken in the ADPAM programme is not a short-lived one as the knowledge and skills I have acquired are equally useful in my study in the undergraduate programme.
