

Yan Wing Ki, Jackie

Graduate of Associate of Social Science in Leisure and Tourism Management in 2008
Year 2 Student of Bachelor of Social Science in Tourism Management, The Hong Kong Polytechnic University

My two years of study on the Associate of Social Science in Leisure and Tourism Management has brightened up my life. It was the first time I had participated in mega-events, the first time I had organized activities with my friends, and the first time I had gone abroad for a four-month overseas attachment at Ming Chuan University, Taiwan. Because of this invaluable opportunity CCCU has offered me, I have broadened my horizons, met a lot of friends from different parts of the world, learned and experienced the culture and tourism of Taiwan and other foreign countries. Special thanks should be given to all the lecturers for their patience in teaching and coaching me. Because of them, I have been able to improve my GPA continuously and have won the 1st runner up in my Final Year Project. Of course, thanks to their effort, my dream of pursuing university education has come true and I have now entered the 2nd year of a UGC-funded degree programme in Tourism Management at the Hong Kong Polytechnic University.
