

## CPD Seminar An Update of Hong Kong's Recent 10 Major Infrastructure Projects

Photo description - The gigantic structure of the Cruise Terminal using large amount of precast long-span elements

<b>Content</b>	<p>The seminar is jointly organized by the Australian Institute of Building (Hong Kong Chapter) together with the Hong Kong Institute of Clerks of Works and the Institute of Clerks of Works &amp; Construction Inspectorate (Hong Kong).</p> <p>Since the introduction of the 10 major infrastructures projects as announced by the Chief Executive in his 2007 policy address, more than half of the projects have been launched with the contracts for the advance works or the main construction contracts being awarded since mid 2000 in stages. Some major projects including the Express Rail, South Island Line, Kai Tak Development, Hong Kong -Zhuhai-Macau Bridge and the Shatin-Central Link, are under construction at the present moment either in full scale or for their advance work packages. This seminar will provide a highlight of the 10 major infrastructure projects with the background of development and the latest update of their current work status. The significance these projects bring to the construction professions and the community as a whole will also be discussed in the talk.</p> <p>A summary of the 10 major infrastructure projects are listed below for easy reference.</p>
----------------	---

	<p><b><i>Transportation Infrastructure</i></b></p> <ol style="list-style-type: none"> <li>1. West Island Line and South Island Line</li> <li>2. Sha Tin to Central Link</li> <li>3. Tuen Mun Western Bypass &amp; Tuen Mun-Chek Lap Kok Link</li> </ol> <p><b><i>Cross-boundary Infrastructure Projects</i></b></p> <ol style="list-style-type: none"> <li>4. Guangzhou-Shenzhen-Hong Kong Express Rail Link</li> <li>5. HK-Zhuhai-Macao Bridge</li> <li>6. HK-Shenzhen Airport Co-operation</li> <li>7. HK-Shenzhen Joint Development of Lok Ma Chau Loop</li> </ol> <p><b><i>New Urban Development Areas</i></b></p> <ol style="list-style-type: none"> <li>8. West Kowloon Cultural District</li> <li>9. Kai Tak Development Plan</li> <li>10. New Development Areas</li> </ol>
<b>Speaker</b>	<p>Mr. Raymond Wong Wai-man is currently serving as a lecturer at the City University of Hong Kong. He is a member of the Hong Kong Institution of Engineers and the Chartered Institute of Building and got his professional membership sine 1982 respectively. Mr Wong has undertaken a series of intensive studies of some of the Hong Kong's world-renowned construction projects. These include some major infrastructure projects such as the new airport and the associated projects, major railway and highway projects, as well as many mega-size building projects with special architectural or structural significance.</p> <p>In the recent 10 years, Mr Wong has extended his study towards the urban development of some major cities of China, in particular Guangzhou and Shanghai, with a focus on the urban planning, infrastructure development and revitalization projects in these cities. Mr Wong is an active researcher in the areas of large-scale construction projects, tall building construction, heavy structures, industrialised construction systems, bridges and long-span structures, transportation projects and other areas related to urban studies.</p>
