## Search Tips

- Use Boolean operators to broaden or narrow search. Note that operators must be in CAPITAL letters.

Operators	Examples	Search Results
AND	<i>retail AND banking</i>	<i>Retail and Banking</i> must be in the same document
OR	<i>Tax OR levy</i>	will find either term or both
NEAR	<i>microsoft NEAR word</i>	will find both terms appearing within the same sentence.
NOT	<i>corporate NOT governance</i>	will find those documents where the term " <i>corporate</i> " appears but " <i>governance</i> " does not.

- Use quotation marks (" ") to search for phrases, e.g. "*corporate governance*".
- Palgrave automatically searches for variations of words. For example, searching for "*study*" will find "*studies*", "*studied*" etc.
- Searches are case insensitive.
