Language: English

Abstract

The presentation consists of four parts. (1) The evolution of S&T and innovation policy. (2) Understanding the concept such as “innovation-driven development” and innovation-driven development policy. (3) The measurement of the innovation-driven development performance. (4) Innovation-driven development cases: Hefei & Shenzhen.

Biography

Prof. MU Rongping received his B.S. and M.S. from University of Science and Technology of China (USTC), and Dr. Phil. degree from Technische Universität Berlin (TUB), Germany. He is Professor of Institutes of Sciences and Development (ISD), Chinese Academy of Sciences (CAS), and founding director of CAS Center for Innovation and Development. He is Dean of School of Public Policy and Management (SPPM), University of Chinese Academy of Sciences (UCAS). He was Director-General of Institute of Policy and Management of Chinese Academy of Sciences. Founder and Editor in Chief of the Journal of Innovation and Development in English, Editor in Chief of the Journal of Science Research Management in Chinese.

Prof. Mu is the president of China Association for Science of Science and S&T Policy Research, the president of the China High-tech Industry Promotion Society, a member of Expert Committee on National Development Plan of NDRC, a member of the Governing Board of International Science, Technology and Innovation Centre for South-South Cooperation under the Auspices of UNESCO (ISTIC). He has been involved in drafting a series of policy documents concerning national innovation capacity building and strategic emerging industry development in China, and published more than 50 papers in peer-reviewed journals and several books concerning Technology Transfer, Technology Foresight, and Innovative Development Policy. His research interests include Science & Technology Policy, Innovative Development Policy, Foresight, R&D Management, Industrial Competitiveness, and Digital Transformation.

All are welcome!
