

Inspecting The Property

When you want to inspect a property, let someone know where you are going or take someone with you.

When inspecting a property you might want to ask yourself the following questions.

1. Are you happy with the location? (even after dark)
2. Is there safe access to the property? (security guard, security system)
3. Is the accommodation secure? (window locks, door access)
4. Is the property safe in the event of fire? (smoke alarms, fire exits)
5. Is the house clean? (if not, make sure it is before you move in)
6. Are there adequate bathroom facilities? (toilet, water heater)
7. Is the feature of the room sufficient for your needs? (enough electrical sockets, lighting)
8. Are all the facilities in good working order? (telephone, lighting, etc. If not, make sure they are before you move in)
