Communicating effectively in academic English is a challenge for any new university student, and the ELC is here to help. Our highly qualified, experienced and knowledgeable teachers provide courses in fundamental academic literacy skills, as well as more specialized courses which focus on the communication needs of students pursuing degrees in different disciplines. We guide students step by step from their current skill level to the level they need for academic and professional success.
To fully immerse CityU students in an English speaking environment, the English Language Support Services (ELSS) provide a range of out-of-class activities such as:
- English workshops on academic literacy, IELTS preparation and workplace English;
- one-to-one writing and speaking consultations; and
- English Language Mentoring Scheme and Chat Groups.

The English Language Self-Access Centre (ELSAC) located on 4/F of LI Building has more than 1000 items including reference books, worksheets and DVDs, and various on-line resources developed with the help of government funds to support independent learning of English by students from Associate Degree to PHD level.

The ELC Scholarship provides wonderful opportunities for capable and dedicated students to enjoy a one-month study visit in London, where they not only develop their language skills but also broaden their cultural horizons. For more information please click here.
