Students are reminded that score weightings and calculations may vary each year. As different weightings are used, admissions scores are not comparable across programmes or admission years. **In particular, while the admission score calculation for 2027 entry has been standardised to five subjects (compared with four or five subjects in 2026 entry), the weighting structure has been streamlined from five levels in 2026 (1.0, 1.25, 1.5, 2.0 or 2.5) to three levels in 2027 (1.0, 1.25 or 1.5).** The admissions scores below are for reference only and should not be used to predict the likelihood of admission in 2027 JUPAS. Besides the main admissions score, other types of scores are considered in the selection process including but not limited to subject results, band choices, interview performance.

JUPAS applicants may also make use of the [CityUHK JUPAS Score Calculator](#) to calculate their admission score for programme concerned. For more information about programmes, please click [here](#).
