### Job Description

You are a creative person with growth mindset who has prior experience in UI and UX. We are running a marketplace for refurbished tech products and seeking for a talent to help us on UI and UX development to enhance our marketplace. We are looking for a creative brain who has experience with the following:

- Knowledge of design tools such as Sketch, PhotoShop, Illustrator, XD, or other tools for creating low / high-fidelity prototype (Required)
- Semantic HTML, JavaScript (JS) and CSS (Desirable)
- Front-end (CSS) framework like Bootstrap to ease your front-end development
- JS frameworks like React (Desirable)
- CSS preprocessors like Sass or LESS (Desirable)
- JS libraries like jQuery or Backbone.js (Desirable)
- A good team player who enjoy the team culture as radically truthfulness and transparency to tackle different challenges
- Positive, proactive team player who is passionate about user experience optimization, and latest trends on interactive design.
- Experience with conducting research via both focus groups and usability tests.
- Understand user-centered design methods and best practices
- Easily learn new UI/UX trend, technologies, languages or frameworks and put it to use quickly.

We love candidate who are:

- Humble, open-minded, proactive, self-motivated, able to work under pressure and tight deadline
- Passionate and hands-on about new trends, design ideas and technologies
- Open to explore new things and expand beyond horizon
- Welcome problem-solving and challenges, ready to contribute the best solutions

This role is a unique opportunity to eco-friendly advocate and make an impact on day one. This person has to be passionate in environmental sustainability and entrepreneurship. We are looking for a self-motivator who is looking to become an integral part of the core team by creating value to eco-friendly community and promoting environmental sustainability.

### Why us?

Ola.Tech is the marketplace for refurbished electronics with simple and secure trade-in platform. We create a platform for sellers to price used smartphones through AI, and buyers to purchase refurbished electronics with quality assured by warranty. Our mission is to maximise reuse and

recycle of electronic devices. We help the community on recycling electronic devices in a simple, secure and sustainable way. We also work with corporates to help manage their idle electronic devices for environmental sustainability. Our partners include SmarTone, 3HK, CSL, Salvation Army and Rotary Club, etc. As a startup, we emphasize a lot on company culture to provide an environment that can facilitate both personal and company growth among team members by promoting radical transparency, direct communication and feedback sharing. You will be able to learn how to run a startup and improve your communication skills. Lastly, we hope you can find your passion through this journey with us.

### **Top reasons to work for OlaTech**

- Work with talented, energetic and fun co-workers in different background
- Learn how to run a startup business in short period of time
- Empower you to work with your own ideas
- External training budget and books coupons on Amazon – be constantly learning
- Great hand-crafted coffee by our co-founder
- Firechat with co-founders during happy hour
- We offer company share if you can prove you are the outperformer
