

Issue 11 (September 2020)

Award

Departments of Biomedical Engineering and Electrical Engineering

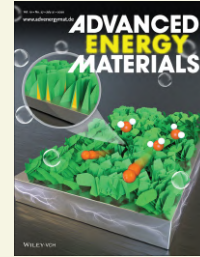

Prof Henry CHUNG was conferred the CityU Outstanding Research Award in recognition of his exceptionally outstanding research achievements. Dr LIU Lu also received the Outstanding Research Award for Junior Faculty. The awards will be formally presented to them at the University Congregation 2020.

Department of Materials Science and Engineering

Faculty achievement

The research work of Prof Johnny HO's research group and its collaborators at Shenzhen University on electrocatalytic oxygen evolution was featured on the cover of the July 2020 issue of *Advanced Energy Materials*.

Faculty achievement

Departments of Biomedical Engineering, Electrical Engineering and Mechanical Engineering

Dr King LAI and Prof LI Wen Jung's joint research on intelligent robotics for elderly assistance (with HKU as PI) and Prof Michael TSE's research on wireless power transfer (with HKU as PI) received a grant of HK\$39M and HK\$25M respectively under the Theme-based Research Scheme 2020-21.

Faculty achievement

Department of Materials Science and Engineering

Department of Architecture and Civil Engineering

Faculty achievement

Dr LEI Danyuan was named Senior Member of the Optical Society in recognition of his substantial experience, professional accomplishment and service in the fields of optics and photonics.

Dr Tommy LO received the Founding Honorary Fellowship from the Guangdong Institution of Engineers. He was also appointed the Co-editor of the Sector Standard for Great Bay Area on Assessment Criteria for Testing and Certification Personnel of Greater Bay Area.

Faculty achievement

Department of Mechanical Engineering

Department of Biomedical Engineering

Faculty achievement

Dr B L LUK and 3 colleagues of the Office of the Chief Information Officer developed a set of flipped learning materials for a GE Course to facilitate students' understanding of the complex mechanism of the wind turbine drive train for electricity generation. The production won a poster award in the Teaching and Learning Innovation Expo 2019-2020.

Prof WANG Dongan was appointed as Head of Research of Ming Wai Lau Centre for Reporative Medicine of Karolinska Institutet (KI) in Hong Kong. The appointment was built upon a Memorandum of Understanding between CityU and KI to promote knowledge exchange, in particular in the areas of bioengineering and biotechnology.

Student achievement

Division of Building Science and Technology

CHAN Kin-wai, a year-2 student, received the Chartered Institution of Building Services Engineers Student Award for his good academic performance. The award also serves to encourage students to pursue a career in building services engineering.
