College of Engineering
Prof Tei-Wei KUO has been elected the recipient of the prestigious Humboldt Research Award, amounting to €60,000, from the Alexander von Humboldt Foundation in recognition of his outstanding academic achievements. He is invited to undertake collaborative research activities with internationally renowned academics in Germany.

Department of Materials Science and Engineering
Dr LEI Dangyuan and his Mainland collaborators were awarded the Shanxi Province Science and Technology Award for their project entitled “Enhanced nonlinear optical effects with plasmonic multiple Fano resonances”. The award was presented to researchers who have made significant contributions in scientific and technological advancement and economic development to the Shanxi province.

Department of Mechanical Engineering
A novel bamboo-processing technique called “super bamboo”, developed by Prof LU Yang’s research team won the Gold Medal Award at the virtual Inventions Geneva Evaluation Days 2021. The technique includes both mechanical and chemical treatments for densifying natural bamboo without destroying the key internal microstructures that are critical for superior mechanical performance.

Department of Electrical Engineering
Two teams of EE students and graduates have been selected to join The Cyberport University Partnership Programme (CUPP) 2020-21 and awarded HK$100K each of seed fund to develop their start-up projects.

Student Achievement
Two PhD students, Mr ZHU Qingling and Mr LIU Fei, under the supervision of Prof ZHANG Qingfu, won the gold prize at Track One of the Logistics Algorithm Competition, a signature event of the 11th International Conference on Evolutionary Multi-Criterion Optimization (EMO) 2020-21 and awarded HK$10K each of seed fund to develop their start-up projects.

Alumni Achievement
4 Graduates, Mr FONG Yiu Sang, Mr LI Chau Ching, Mr PUNS Shiu Lung & Mr SHEK Kai Nam, received the UK University College of Estate Management Scholarship and an award of HK$10,000 each.
