College of Engineering

The virtual JUPAS Consultation Day 2021 was successfully concluded on 22 May 2021. To allow prospective students to have a better understanding of our programmes, the College and its constituent departments have organised various exhibitions and live talks, including a live talk entitled "College of Engineering – Key to success (城⼯成功)".

Department of Computer Science

As a recognition of his devotion to teaching and learning activities, Dr TAN Chee Wei was selected to receive CityU's Teaching Excellence Award 2020-21 for 'Teach to Inspire and Uncover, Innovate and Inspire to Teach'. The award was formally presented to him at the Commencement in late May 2021. Dr TAN was also nominated by the University to compete for the UGC Teaching Award.

Department of Computer Science

A project team comprising Miss ZHANG Yifan and Mr ZHANG Jinghuai, under the supervision of Prof WANG Jianping, was awarded the Hong Kong Computer Society Student Sponsorship 2020 for their research work titled "A Novel Learning Framework for Sampling-Based Motion Planning in Autonomous Driving". The research work was also published in the 2020 AAAI Conference.

Department of Biomedical Engineering

The research led by Dr. XU Changle concerning a new generation of microfluidic technology which allows the intracellular delivery of living cells in a minimally invasive manner was published in Nature Biomedical Engineering. The research work will facilitate the development of an easy-to-use cell therapy and other therapeutics against cancers and other diseases.
