Departments of Computer Science and Mechanical Engineering

Dr WANG Shiqi and Dr ZHAO Jiyun were selected to receive the President’s Award 2021 for their remarkable achievements in their respective academic arena in support of the University’s development.

Department of Advanced Design and Systems Engineering

Dr Andy CHOW received a Smart Traffic Fund of over HK$1.6M from the Hong Kong Transport Department to conduct research on intelligent traffic system using the IoT and reinforcement learning technologies.

Department of Advanced Design and Systems Engineering

The project presented at the Smart Traffic Award Competition 2021 by Prof. Takashi HIBIKI and his team on the development of advanced navigation system based on optical flow estimation and real-time motion tracking received the 2022 Technology Development Award from Japan’s Atomic Energy Society. The award is a recognition of the contributions of the research team in technology related to the practical use of nuclear energy through a long-term or multi-institutional collaborative project.

Department of Electrical Engineering

Mr Patrick LIU, a 1998 graduate of the Computer Engineering programme, received a number of awards:
- Banking Executive of the Year awarded by the HK Business Magazine,
- Best 30 Chief Security Officer by IDG ASEAN CSO30, and
- Cybersecurity Award: Highly Commended CISO of the Year.
