Congratulations to the team!

Teaching Excellence Award.

Managerial and strategic leadership in the Development and Education of the College of Engineering.

The Train-the-trainer Education Team for the College of Engineering.

Innovative casework family by using the Autodesk, an American multinational software corporation.

Fog-to-electricity energy harvesting.

Nanostructured 

Inorganic 

Materials.

Department of Materials Science and Engineering

Mr CHEN Ze (PhD student)

- Prof ZHI Chunyi

- Mr SU Yupei (PhD student)

- Dr GUO Chunxia & Dr SI Qingdong

- Dr XU Chenjie

- Dr YAO Xiaoxue & Mr WANG Feng

- Prof XIE Min

- Dr Steven WANG Department of Mechanical Engineering

- Prof WANG Zuankai

- Dr WANG Lidai Department of Biomedical Engineering

- Dr LIU Chao (PhD student)

- Dr YAO Rui & Mr WANG Feng

- Prof HU Jinlian Department of Electrical Engineering

- Dr WANG Xiaodong

- Dr LIU Changli & Mr WANG Feng

Dr Steven WANG was featured in the cover of the prestigious journal Chemical Reviews.

A review on rare-earth doping in nanostructured inorganic materials by Prof WANG Feng and his collaborators.

Nature Communications.

Yao Shuyin won the 2nd Runner-up of the OpenBIM/openGIS competition organised by the Hong Kong Branch of the International Federation for Integration of Information in Architecture, Engineering and Construction.

Mr Rayan WAN won the 2nd Runner-up of the BIM’s Got Talent Competition 2022 organised by the Hong Kong Institution of Engineering (Structural Division) for a co-authored paper entitled "Structural Dynamics: Panorama of the Hong Kong Experience".

Colleagues I met along the way have made a significant impact on my journey in the Department of Mechanical Engineering.

Innovation, Motivating, Aspiring comprising Prof Henry Tse, Dr Calvin KEUNG, Dr KIM Jung In and Dr LAM Miu Lo as well as key collaborators.

Hitting the right target.

Mr Chau Chau Yuk, an alumnus of the Polytechnic University of Hong Kong and the Electrical and Computer Engineering Department.

Mr CHEN Ze (PhD student) was awarded as a Gold Medal student for his outstanding service.

The achievements and contributions to science and society.

The Department of Architecture and Civil Engineering is comprising of Prof LI Qiusheng and his collaborators.

A paper entitled Effect of interfacial drag force model on code prediction for upward channels by Prof Takashi HIBIKI and his collaborative team was published in the Computational Multiphase Flow Journal.

In recognition of his distinctive achievements and contributions to science and society.

Prof XIE Min is elected as a member of the European Academy of Sciences and Arts.

Innovative, Strategic, Committed, Prof XIE Min was elected as a member of the European Academy of Sciences and Arts.

The Management and Research Fund (2020-2021) awarded from universities in Hong Kong.

BIM model authoring tool. Ryan is the only innovative casework family by using the Autodesk, an American multinational software corporation.

Innovative, Strategic, Committed.

Mr Rayan WAN won the 2nd Runner-up of the BIM’s Got Talent Competition 2022 organised by the Hong Kong Institution of Engineering (Structural Division) for a co-authored paper entitled "Structural Dynamics: Panorama of the Hong Kong Experience".

Yao Shuyin won the 2nd Runner-up of the OpenBIM/openGIS competition organised by the Hong Kong Branch of the International Federation for Integration of Information in Architecture, Engineering and Construction.

Mr CHEN Ze (PhD student) was awarded as a Gold Medal student for his outstanding service.

The achievements and contributions to science and society.

Prof XIE Min is elected as a member of the European Academy of Sciences and Arts.

Innovative, Strategic, Committed.
