About The Role
About the FDM Graduate Programme and roles:

The FDM Business Analysis and Project Management Graduate Programme will give you the opportunity you need to kickstart your dream career in tech.

We help thousands of graduates each year launch and fast-track their career progression. We welcome applications from all degree disciplines. You don't need a STEM degree, it’s your attitude, aptitude and passion for tech that matters.

The programme starts with award-winning training from our certified trainers out of the FDM Hong Kong Academy. Like all interviews and assessments, this is done remotely in response to Covid-19, to ensure the safety of our community.

Once you’ve completed your training, you will gain real-world professional experience placed with one or more of our globally recognised clients, working in their team as an FDM Consultant for a period of two years.

As an **FDM Business Analyst** on client site you will bridge the gap between the technological and business side of an organisation. Working with various teams and departments across the business your role is crucial to future development, helping to streamline processes, increase efficiency and improve services.

As an **FDM Project Support Officer**, you play the pivotal role of programme organiser and people co-ordinator, working closely with Project Managers to plan, direct and drive forward key projects from start to finish, keeping them on track and ensuring their success.

A career in Business Analysis or Project Management can lead to a wide range of job opportunities as you learn from industry experts and gain expertise across a broad variety of business-critical areas.

**Business Analysis career prospects** range from Junior Business Analyst to Head of Business Analysis.

**Project Management career prospects** range from Project Support Officer to Head of Project Management.

When you apply for the **Business Analysis and Project Management Graduate Programme** our experienced recruitment team will get to know you and your strengths to ensure you find the role that’s best for you.

What we offer you:

- Industry-recognised training, covering both technical and professional skills, to ensure you are job ready. In this programme, you will receive the widely recognised Prince 2 certification, which will make you a highly desirable asset in any business.
- Opportunity to work with our market leading clients as part of their integrated teams.
• Comprehensive support and development programme throughout your entire FDM career journey, including continued professional development, mentoring and networking events.

About You
We ask you have the following:

• Bachelor’s degree preferably in Business or related disciplines
• Able to commit to the two-year consultant programme with FDM
• Strong stakeholder management skills
• Ability to work within fast-paced environment
• Excellent interpersonal skills and communication skills in English and Cantonese
• Eligibility to work in Hong Kong

At the end of your two-year consultant period, you have a number of options to progress your career. You can continue your journey with FDM as a senior consultant, you may be offered a permanent position with the client you are placed with, or you can pursue other opportunities.

About Us
About FDM:

FDM Group is the pioneer and market leader in the recruit, train and deploy industry specialising in the technology sector. For over 30 years, FDM has helped successfully launch the tech careers of thousands of graduates just like you, with 2,600 globally in 2021 alone.

With centres across APAC, Europe and North America, FDM has shown exponential growth throughout the years, firmly establishing itself as an award-winning FTSE 250 employer. In 2021 FDM won the Equal Opportunity Award for Gender Equality, Racial Equality and Inclusion from the Equal Opportunities Employer Commission (EOC), FDM was also named one of GradSingapore’s 100 Leading Graduate Employers.

FDM is a company committed to diversity and inclusion, we celebrate difference because we want everyone to have equal opportunity to belong and grow in their career. We are active in creating a more gender-balanced workforce, with circa 33% of our senior management team and 31% of all employees identifying as female.

Due to COVID-19 we have implemented alternative working arrangements to ensure that all our people stay safe. These consist of remote working, virtual training, video interviewing, and access to webinars and virtual events.

Otherwise, at FDM it’s ‘business as usual’, we are recruiting year-round and have training start dates throughout the year.

The demand for tech talent is hot and getting hotter
