📸 NanFungTalent
Nan Fung Group

In just over 60 years, Nan Fung Group has transformed itself from a small Hong Kong textile manufacturer to a highly respected regional business conglomerate with global interests in property markets, financial investments, and a diverse range of business partnerships. Known for its pioneering spirit and sound business strategies, Nan Fung Group is a key player in the Asian region, particularly in the luxury residential and commercial property markets, and one of the largest non-listed conglomerates in Hong Kong.

Recent development of the Group includes an acquisition of a large scale commercial site in Kai Tak area with approximately 2 million square feet GFA for a consideration of HKD 24.6 billion, the largest land bid recorded in Hong Kong at the time, in May 2017, which will become one of the tallest buildings in Kowloon, as well as the opening of the Mills in Tsuen Wan, which is a social revitalization project of a historical yarn factory building with an aim to promote innovation, creativity and entrepreneurship in Hong Kong.

Nan Fung Internship Program 2021

2-month Placement (Mid Jun – Mid Aug 2021)

2-month placement is designed to help develop talented undergraduates by providing practical job experience and exposure to one of the following areas:

Property Development
- Familiar with different types of land tenure and land leases in HK
- Conduct land search and market research
- Carry out transaction update according to different property sectors
- Update land and town planning cases approved by the government

Project (Kai Tak Commercial Project)
- Establish the involved parties, workflow and critical control prints
- Create scope of works matrix and job requirement for the Consultants streams at each stage of design and construction works
- Finalise the project manual for review and issuance

Project (Building Services)
- Handle engineering and maintenance work in commercial buildings and shopping malls
- Work with technical team to perform day-to-day operations & regular maintenance work of E&M system
- Handle emergency duties, project management, fitting-out work control and provide consultancy
