Matthew CHUI under the supervision of Dr Janet WONG of the Imperial College London has contributed to a paper as the second author during his overseas internship at Imperial College. The paper, entitled Interactions between Organic Friction Modifier Additives, has been accepted for publication by Tribology International.

“My problem-solving and research skills have improved a lot. I become more confident, open to new ideas and different cultures, and tend to think critically.”
Internship in Auckland is a precious experience to build up fundamental knowledge of being a professional quantity surveyor. On-site visit enables me to understand the real process of building up concrete columns and grouting which is very useful and practical.

“I like the experience I got from the OIS. I enjoyed every day I spent in the U.S. By doing research, I know more about advanced technology and cutting-edge subjects. I have a glimpse of how graduate schools are, and be determined to pursue a master degree in US.”
Being a Student Researcher, I have learned and experienced a lot. CityU should keep OIS as it provide students with the needed experience for job opening or further study. Also, it is extremely rewarding as it could lead to a more permanent position, which is what happened to me. I ended up learning a lot more than I expected.

‘OIS allowed me to challenge and train myself academically in a subject area that I was previously vaguely familiar with. I greatly enjoyed and appreciated the hands-on learning approach.... The summer spent living independently and working in an independent environment where I had the opportunity to manage my own time at each stage was in many ways, refreshing.

OIS experience was challenging, eye-opening, and most importantly enjoyable!’

Eligibility

- Penultimate year students.
- CGPA at or above 2.50
- preferable 2.7 or above
- IELTS overall score ≥ 6.5 is required for some UK and USA positions. Students should take note of the requirements before application.
- Completed Engineering Training I for EE
- Student on outbound exchange during semester B may also apply but will have to observe the dates for the COMPULSORY Pre-departure Workshop and Final Briefing scheduled right after the examination period in May, i.e. MUST be able to return to CityU to attend the compulsory sessions.

CityU subsidy
- 25K (Europe & North America)
- 22K (Australia & New Zealand)
- 16K (Asia: Japan, Singapore, S Korea)
- 11K (Asia: outside Japan, Singapore, S Korea)

When?
- Mid-May: 50% after visa is obtained
- End of Oct: 50% (full completion and obtain a Pass Grade)

Major expenses
- Airfare
- Living costs
- Accommodation
- Food
- Local transport

If the host provides accommodation or airfare or allowance, CityU subsidy will be significantly reduced.
Reaching Out Award (ROA)

- HKSAR Government Scholarship Fund administered by the Student Development Services on a competitive basis
- OIS participants are eligible (mainly for Local Students)
- Will announce by your parent department by April or May
- Application via your parent department
- CEC will endorse your participation in OIS
- Not affect your subsidy under OIS

OIS Account Activation

Dear CHAN Po Lam,

1. If you are interested in applying for Overseas Internship Scheme 2019, please activate your user account now via the following link:

Activate User Account

“Application Period: 15 – 24 Oct 2018. Late application will not be accepted.

2. View Job Vacancies.

After doing the account activation, you can visit the Co-op Centre website at www.cityu.edu.hk/coop/cag and search under Overseas Internship Scheme to view the latest available job openings. More job vacancies will be uploaded in Oct/Nov. DO NOT indicate your choice of job posts at this stage.

3. Submit Application

Please log on to the system and submit your application from 09:00 15 Oct 2018 (Mon) to 24:00 24 Oct 2018 (Wed). Please start your application early to avoid any delay. Late submission will not be entertained.
