

# Tectonic Technology Innovation Company Limited

## Company Description

Tectonic Technology Innovation Company Limited (“TTI”) is a Hong Kong Science Park Company under incubation program. Furthermore, TTI is partnering with ASTRI to develop a blockchain platform, tectechain.com, to facilitate the Intellectual Property (IP) owners to uncover values of their inventions/creations and to promote the selling and collaborations of the IP, in turns support more new inventions/creations.

To build blockchain-based patents exchange platforms to connect buyers directly with IP owners. The IP owners can decide to sell ownership or usage rights to the potential investors through digital contracts. The platform standardizes and simplifies the IP trading process and open up eventually the globally IP ecosystem.

Tectechain.com is also a NFT enabler and NFDA generator for entering Metaverse.

## Job Vacancies

### 1. Marketing and Customer Services

Design and Implementing digital marketing for the platforms, organizing Exhibitions, On-site promotions, customer services.

Familiar with **Discord, Twitter and IG**

Good to write in English and/or Chinese

or any other languages is a +,

Knowledge of graphics is a ++,

Experience in NFTs and Crypto is a +++
