

Cyber Security Graduate Programme

About The Role

There are thousands of graduates in the job market, stand out from the crowd.

Technology is transforming all our lives – developments in robotics, automation, AI and big data are creating the careers of the future. Digital careers need intelligent, analytical minds, people who want to make a difference; graduates who desire to be at the forefront of change.

We have unprecedented levels of demand for keen and ambitious individuals, to join the exciting world of Cyber Security careers. **You don't necessarily need to know anything about technology right now, and we actively encourage applications from people with no experience and from all backgrounds, we simply want to see lots of passion for Cyber Security!**

FDM are hiring Graduates who want to kick start their career in this space and are looking for individuals to start our Graduate Program in the upcoming months. We will provide you with 2-3 months of full time training which is currently being delivered remotely due to the pandemic. Our experienced Trainers will upskill you so you are ready to work on-site with our prestigious clients in a Cyber Security role where you will help to protect businesses against the real-world cyber threats that are taking place every day!

If this sounds like something you would like to know more about, please apply only by sending your CV through LinkedIn or applying directly through our website.

What FDM has in store for you:

We welcome applicants from all degree backgrounds. All you need is the drive and passion for building an exciting and dynamic career in the world's fastest growing industry. FDM's award-winning training will equip you with the skills you need to excel.

About You

- Bachelor's degree preferably in Business Analytics, Finance, Economics, Accounting, or related disciplines
- Able to commit to completing our full 2.5-year graduate programme
- Strong analytical thinking with good presentation skills
- Ability to work within fast-paced environment
- Excellent interpersonal skills and communication in in both English and Chinese (either Cantonese or Mandarin)
- Eligibility to work in Hong Kong

What we offer you:

- Fully funded, industry-recognised training and qualifications
- A foot in the door to some of the world's most reputable organisations
- Mentoring and on-going support throughout your entire FDM journey
- Modern and central training academies
- Social events and networking
