Connecting Android device to “CityU Alumni” wireless network

a) Tab “Home” and select "Settings" icon.

b) Select and turn on “Wi-Fi” to list the available wireless networks in range.

c) Select the "CityU Alumni" network.

d) Wait until you see the configuration window and select/enter the following connection parameters:
(Remark: Some newly Android version must select the CA certificate, please select “Use system certificates”, then fill-in the Domain “cityu.edu.hk”)
Press “Connect” to continue.

e) You can now access the Internet upon successful logon.
