DENTAL WORKSHOP

A basic and advanced workshop with
lectures and practical sessions

ORAL SURGERY RECONSTRUCTIONS, 22 JULY 2019, MONDAY

This course is intended for the general practitioner who wants to advance their dental surgery skills beyond dental extraction.

It highlights diagnostic methods and several surgical treatment options for common orofacial problems.

We will spend some time in discussing and interpreting dental radiographs. We cover theoretically and practically how to manage ONF and palatal defects, simple mandibular fracture repair and how to deal with an acutely luxated canine.

Lecture

- X-ray examination - what am I looking at?
- Oral nasal Fistula (ONF) repair techniques
- Intraoral acrylic splint techniques
- Dental blocks

Practical

- ONF repair and palatal repair - includes advancement, rotational, split U, ear cartilage, Ossiflex membrane
- Symphyseal separation and simple mandibular fracture repair
- Splinting techniques for lateral luxation of maxillary canine

Date: Oral Surgery Reconstructions: 22 July 2019 (Mon)
Extractions - Tips and Tricks: 23 July 2019 (Tue)

Time: 9:00 am to 5:00 pm

Venue: Rm8210, 8/F, Lau Ming Wai Academic Building
City University of Hong Kong
Kowloon Tong

Fee: **HKD4,800 per course OR**
HKD8,000 for combined courses
(early bird registration before 16 June 2019)
HKD5,500 per course OR
HKD9,200 for combined courses
(after 16 June 2019)

CPD: 6.75 CPD points each workshop from the
Veterinary Surgeons Board of Hong Kong

Registration:

EXTRACTIONS - TIPS AND TRICKS, 23 JULY 2019, TUESDAY

Get a basic understanding to become more confident in dental extraction. This one day course covers, tooth extractions of single rooted and multiple rooted teeth, how to design and execute a tension free gingiva flap.

You will learn how to use a high speed handpiece to section teeth, how to perform alveolotomy and alevoloplasty and to design a tension free flap. We will help to explain the usage of dental instrumentation and which instruments are essential for the small animal clinic.

In the lecture we will cover the most common dental diseases that can be identified on radiographs. We will discuss how to execute an oral examination and charting to give you more confidence in identifying dental disease and allow you to design a treatment plan. We also cover the latest treatment options in chronic feline dental disease.

Lecture

- Oral examination and charting
- Extraction Techniques and Gingiva flap designs
- Local anaesthesia
- Introduction to the root canal - an alternative to extraction
- Update on feline dental disease pathology and latest treatment options

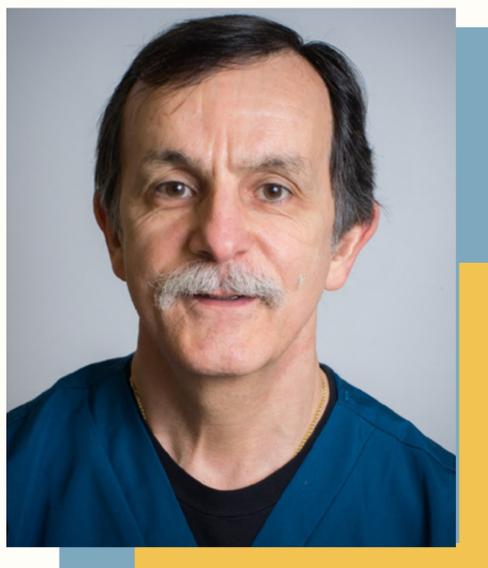

Practical

- What and how to use dental instrumentation
- Local blocks
- Extraction techniques
- Mucogingival flap design

SPEAKER

Dr Loïc Legendre *DVM, FAVD, Dipl. AVDC, Dipl. EVDC*

ACADEMIC & PROFESSIONAL

Bachelor of Science with Honours from Simon Fraser University, BC, Canada 1980
DVM, Western College of Veterinary Medicine, Saskatoon, Saskatchewan, Canada, 1984
Fellow of the Academy of Veterinary Dentistry, 1993
Diplomate American Veterinary Dental College, 1995
President of Academy of Veterinary Dentistry, 1997-1999
Diplomate European Veterinary Dental College, 1998
AVD-Hill's Research and Education Award 2005
Member of the European exam committee 2008-2013
Secretary of the Academy of Veterinary Dentistry 2015-2017
President of the World Veterinary Dental Congress 2015-2019
Zoo and Wildlife Dentistry Certificate 2017

ACTIVITIES

After running a mobile referral practice in British Columbia for several years, Dr. Legendre now works at West Coast Veterinary Dental Services Ltd. This is a dental referral center where two other boarded dentists and one resident also work. He has published several articles in Canadian Vet Journal, J Vet Dentistry, Compendium of CE for the Veterinarian and chapters in veterinary books such as "Oral and Maxillofacial Surgery in Dogs and Cats" and Veterinary Clinics of North America. He enjoys teaching both for universities and at conferences around the world. His areas of interests are orthodontics and maxillofacial reconstruction techniques.

Added to the regular day to day work, he teaches yearly 15 to 20 week-end courses in North America, courses at the European Vet Dental School in Halmstad, Sweden; lectures at the Veterinary Dental Forum and the European Congress of Veterinary Dentistry. Moreover, he is a frequent presenter at international meetings such as WVC, WVDC, WSAVA, VMX (NAVC). He is also a reviewer for the Journal of Veterinary Dentistry, the Journal of Feline Medicine and Surgery and the Journal of Exotic Pet Medicine.
