## Enhancing Teaching & Learning with Podcasting

**Project Number:** 6000123

**Principal Investigator:** Mr Mang Tang CHAN

**Grant Type:** TDG

**Abstract:**

In the light of common interests in podcasting for student learning, teacher & students of different subjects, in CS, IS and AIS departments will collaborate in this investigation project. It will create a greater population and a valuable diversity for evaluating the effectiveness of integrating voice elements in learning. The project will examine whether the technology brings discrimination to students or creates more options for catering the differences. It will definitely help identify the best practices of podcasting for enhancing student learning.
