Enhancing Student's Graphical Presentation Skill in Science and Engineering

Project Number: 6000428

Principal Investigator: Dr Denvin Tak Bun LAU

Grant Type: TSG

Abstract:

The objective of this proposed work is to enhance the graphical presentation skills of our undergraduate students, especially in the science and engineering fields. In recent decades, more and more prestigious journals emphasize the importance of figures in delivering abstract ideas. Graphical abstract and highlight has gradually become a necessary element in many scientific journal publications, and in fact, it plays an important role to help general readers understand the significance and impact of the research work through figures and graphs.
