A good vet must

- Have knowledge, skills, and attitudes that contribute to the health and welfare of animals
- Practice veterinary medicine in a manner that minimises risk for the animals, clients, nurses and themselves

Career Prospects for Veterinary Graduates

Research Scientist
- Veterinary medicine
- Human medicine
- Animal science
- “One Health” researcher

Specialist Veterinarian
- Orthopaedic surgeon
- Ophthalmologist
- Radiologist
- Dermatologist
- Cardiologist

Government Veterinarian
- Regulating animal imports
- Controlling epidemics
- Controlling ‘superbugs’
- Food safety

Clinicians
- Dogs and cats
- Farm animals
- Horses
- Fish
- Zoos and wildlife

Industry
- Veterinary supply
- Pharmaceutical
- Pet food
- AgriBusiness

Other Fields
- Animal management
- University education
- Animal NGOs
- Research institute
