Part II Course Details

1. Abstract

This course aims to examine the theory and practice of advanced family practice, with an emphasis on models of family development and major approaches to intervention with contemporary diverse families. Students will learn to think systemically about families across multiple ecological systems, and identify the crucial epistemological issues in both theoretical and applied areas of family in Chinese culture. The ability to assess family issues and problems is stressed to help the students develop effective preventive and intervention plans. The course blends didactic and experiential learning for the purpose of providing the students with the opportunity to develop skills and connect them to the appropriate knowledge base.

2. Course Intended Learning Outcomes (CILOs)

(CILOs state what the student is expected to be able to do at the end of the course according to a given standard of performance.)

No.	CILOs	Weighting (if applicable)	Discovery-enriched curriculum related learning outcomes (please tick where appropriate)		
			A1	A2	A3
1.	Identify conceptions of family, major family-based intervention approaches in analyzing family in needs, making effective assessment and devising effective intervention.	30%	√	√	√
2.	Apply relevant concepts and skills for working with families suffering from diverse presenting problems.	30%	√	√	√
3.	Recognize self-qualities and impacts from one's family system.	40%	√	√	
		100%			

A1: Attitude

Develop an attitude of discovery/innovation/creativity, as demonstrated by students possessing a strong sense of curiosity, asking questions actively, challenging assumptions or engaging in inquiry together with teachers.

A2: Ability

Develop the ability/skill needed to discover/innovate/create, as demonstrated by students possessing critical thinking skills to assess ideas, acquiring research skills, synthesizing knowledge across disciplines or applying academic knowledge to self-life problems.

A3: Accomplishments

Demonstrate accomplishment of discovery/innovation/creativity through producing /constructing creative works/new artefacts, effective solutions to real-life problems or new processes.

3. Teaching and Learning Activities (TLAs)

(TLAs designed to facilitate students' achievement of the CILOs.)

TLA	Brief Description	CILO No.			Hours/week (if applicable)
		1	2	3	
TLA1: Recommended Readings	Textbooks and recommended readings per week before each lecture, and online Blackboard learn to provide comments, clarifications, responses, debates, discussions, reviews of teaching and readings.	√	√	√	
TLA2: Lectures	Lectures about contemporary theories, knowledge and skills about working with families in transitions	√	√	√
