

City University of Hong Kong
Course Syllabus

offered by Department of Public and International Affairs
with effect from Semester B 2022/23

Part I Course Overview

Course Title:	International Political Economy
Course Code:	PIA5023
Course Duration:	One Semester
Credit Units:	3
Level:	P5
Medium of Instruction:	English
Medium of Assessment:	English
Prerequisites: <i>(Course Code and Title)</i>	Nil
Precursors: <i>(Course Code and Title)</i>	Nil
Equivalent Courses: <i>(Course Code and Title)</i>	AIS5023 International Political Economy
Exclusive Courses: <i>(Course Code and Title)</i>	Nil

Part II Course Details

1. Abstract

IPE is a thriving sub-discipline that seeks to combine political and economic variables in its analysis of the changing global economy. Challenging purely economic analysis, one scholar (Andrew Walter) rightly asks, “why do most countries ignore economists and raise barriers to trade?” In this course, we consider whether there are persistent patterns (national capitalisms), new patterns (globalization and regionalization) and key geographic sites (global cities). Multinational corporations (MNCs) play a prominent role in the production, consumption and exchange of goods and services in most economies. One of our objectives is to investigate the ways through which MNCs seek to enhance their positions in a competitive and volatile global economy. We also examine the themes of economic approaches to the environment, food and the global economy, the global illicit economy and the future of Hong Kong logistics.

We want to think closely about the following questions concerning the IPE and our case studies:

- Which are the key actors in IPE?
- At what level of analysis should we study these actors?
- Is there continuity or change in the global political economy?
- How can we see a link between the global political economy and Asia/Hong Kong?

2. Course Intended Learning Outcomes (CILOs)

(CILOs state what the student is expected to be able to do at the end of the course according to a given standard of performance.)

No.	CILOs	Weighting (if applicable)	Discovery-enriched curriculum related learning outcomes (please tick where appropriate)		
			A1	A2	A3
1.	Comprehend how scholars in this discipline draw together political and economic analysis of the international economy		✓	✓	✓
2.	Identify the key debates over the study of the global financial and production systems		✓	✓	✓
3.	Develop arguments concerning the sources of power in the global economy		✓	✓	✓
4.	Present well thought-out analysis on the likelihood of change in the global economy		✓	✓	✓
		100%			

A1: Attitude

Develop an attitude of discovery/innovation/creativity, as demonstrated by students possessing a strong sense of curiosity, asking questions actively, challenging assumptions or engaging in inquiry together with teachers.

A2: Ability

Develop the ability/skill needed to discover/innovate/create, as demonstrated by students possessing critical thinking skills to assess ideas, acquiring research skills, synthesizing knowledge across disciplines or applying academic knowledge to self-life problems.

A3: Accomplishments

Demonstrate accomplishment of discovery/innovation/creativity through producing /constructing creative works/new artefacts, effective solutions to real-life problems or new processes.

3. Teaching and Learning Activities (TLAs)

(TLAs designed to facilitate students' achievement of the CILOs.)

TLA	Brief Description	CILO No.						Hours/week (if applicable)
		1	2	3	4			
1	Lectures and readings	✓	✓	✓	✓			
2	Student-led discussions	✓	✓	✓	✓			
3	Instructor-led field trips (in-person and virtual)	✓	✓	✓	✓			
4	Documentaries	✓	✓	✓	✓			
5	Mini-case studies: students will work together to develop research, collaborative and creative thinking skills	✓	✓	✓	✓			

4. Assessment Tasks/Activities (ATs)

(ATs are designed to assess how well the students achieve the CILOs.)

Assessment Tasks/Activities	CILO No.						Weighting	Remarks
	1	2	3	4				
Continuous Assessment: 100%								
Discussion board	✓	✓	✓	✓			35	Discussion boards serve as platforms for students to practice active learning by sharing arguments, ideas and sources of information. They are also a training ground for students to develop their ability to participate in intellectual conversations online. You will participate in 5-6 discussion boards on Canvas, each of which is designed for students to work on their problem-solving skills.
Discussant	✓	✓	✓	✓			5	Each student is responsible for serving as a discussant in one week. Discussants will have carried out advance research to go deeper into the topic and they will: <ul style="list-style-type: none"> • identify key points and questions raised by classmates on discussion boards • present their position on some of the key issues • think of critical cases that shed light on the topic • think about provocative/penetrating questions that will challenge classmates and/or any guests and generate discussion • be prepared to answer questions from classmates • be ready to take on a leadership role in smaller groups, when appropriate
Participation	✓	✓	✓	✓			15	Grading here is based on 70% for active and informed participation and 30% for attendance. Being active means contributing insights, asking questions and being a good listener. Being informed entails careful reading of the course materials.

Research essay	✓	✓	✓	✓			45	The most important piece of assessment comes last when the discoveries from theories and cases during semester will be applied in the form of intensive research. The findings will be presented in a research essay.
Examination: 0% (duration: N/A , if applicable)								100%

5. Assessment Rubrics

(Grading of student achievements is based on student performance in assessment tasks/activities with the following rubrics.)

Applicable to students admitted in Semester A 2022/23 and thereafter

Assessment Task	Criterion	Excellent (A+, A, A-)	Good (B+, B)	Marginal (B-, C+, C)	Failure (F)
1. Discussion board	Performance in posting and commenting on a discussion board	Evidence of excellent conceptual and critical thinking. Ability to comprehend and critique lectures and reading materials. Student is able to make sophisticated arguments and draw insightful conclusions about the key issues and debates concerning IPE as well as being able to extend the different theoretical models in a clear and precise manner.	Evidence of good conceptual and critical thinking. Major themes of the lectures and readings are understood. Student is able to form plausible arguments and reasonably convincing conclusions about key issues and debates concerning IPE and have broad understanding of the theories that underpin them.	Evidence of incomplete/marginal ability to analyse material presented in lectures and discussion groups. Demonstrating only a general understanding of lectures and reading materials. Student cannot make sustained arguments or reach convincing conclusions.	Little or no effort put into the course. The student has failed to demonstrate even a minimal capacity to analyse issues and debates concerning IPE. and theories behind it.
2. Discussant	Quality of contributions to class discussion in the assigned week	Evidence of excellent conceptual and critical thinking. Ability to comprehend and critique lectures and reading materials. Student is able to make sophisticated arguments and draw insightful conclusions about the key issues and debates concerning IPE as well as being able to extend the different theoretical models in a clear and precise manner.	Evidence of good conceptual and critical thinking. Major themes of the lectures and readings are understood. Student is able to form plausible arguments and reasonably convincing conclusions about key issues and debates concerning IPE and have broad understanding of the theories that underpin them.	Evidence of incomplete/marginal ability to analyse material presented in lectures and discussion groups. Demonstrating only a general understanding of lectures and reading materials. Student cannot make sustained arguments or reach convincing conclusions.	Little or no effort put into the course. The student has failed to demonstrate even a minimal capacity to analyse issues and debates concerning IPE. and theories behind it.
3. Participation	Quantity/quality of questions and comments raised each week	Evidence of excellent conceptual and critical thinking. Ability to comprehend and critique lectures and reading materials. Student is able to make sophisticated arguments and draw	Evidence of good conceptual and critical thinking. Major themes of the lectures and readings are understood. Student is able to form plausible arguments and reasonably convincing conclusions about key issues	While the student has regularly attended class, performance has been below class average demonstrating only a general understanding of lectures and reading materials.	Little or no effort put into the course. The student has failed to demonstrate even a minimal capacity to analyse issues and debates concerning IPE. and theories behind it. The student has missed a number of classes
