## Part II Course Details

### 1. Abstract

The course gives students a unique opportunity to learn and discuss the latest developments faced by financial markets and put in practice by leading practitioners in the broad area of finance. The course will be taught by a pool of industry experts who will engage in interactive discussions of current issues in their area of expertise. On completion, students will have a rounded knowledge and appreciation of the key issues that the finance industry faces in Hong Kong, the Asia-Pacific region and across international markets. They may also have the opportunity to discuss their future career choices with industry mentors.

### 2. Course Intended Learning Outcomes (CILOs)

(CILOs state what the student is expected to be able to do at the end of the course according to a given standard of performance.)
