# City University of Hong Kong Course Syllabus

# offered by School of Energy and Environment with effect from Semester A 2022/23

## Part I Course Overview

| Course Title:             | Skills for Scientists |  |  |  |  |
|---------------------------|-----------------------|--|--|--|--|
| Course Code:              | SEE8003               |  |  |  |  |
| Course Duration:          | One semester          |  |  |  |  |
| Credit Units:             | 2                     |  |  |  |  |
| Level:                    | R8                    |  |  |  |  |
| Medium of<br>Instruction: | English               |  |  |  |  |
| Medium of<br>Assessment:  | English               |  |  |  |  |
| Prerequisites:            | Nil                   |  |  |  |  |
| Precursors:               |                       |  |  |  |  |
| Equivalent Courses:       | Nil                   |  |  |  |  |
| Exclusive Courses:        | Nil                   |  |  |  |  |

#### Part II Course Details

#### 1. Abstract

The course aims to equip entry-level postgraduate students with the essential skills in conducting high-level research and developing their long term professional career. This includes the shaping of curiosity-driven research aptitude, the ability to perform critical thinking and analyses, as well thinking-outside-the-box. It will also consider a range of important transferable skills that are required for careers in industry, government or academia.

### 2. Course Intended Learning Outcomes (CILOs)

| No. | CILOs <sup>#</sup>  | Weighting*<br>(if applicable) | •  |    | earning outcomes |
|-----|---|-------------------------------|----|----|------------------|
|     |   |                               | A1 | A2 | A3               |
| 1.  | Recognise, in a systematic manner various fundamental<br>and curiosity-driven research skills: critical thinking,<br>research methodology, computing, data collection,<br>literature analysis key to developing academic research | 30%                           | N  | N  | ß                |
| 2.  | Develop transferable skills in time management,<br>leadership etc of relevance to scientists and future<br>careers in industry, government or academia.   | 40%                           |    | Ø  |                  |
| 3.  | Reflect on other research and career issues in a self-<br>confident manner.   | 30%                           |    | Ø  |                  |
| L   |   | 100%                          |    | 1  | 1                |

#### A1: Attitude

Develop an attitude of discovery/innovation/creativity, as demonstrated by students possessing a strong sense of curiosity, asking questions actively, challenging assumptions or engaging in inquiry together with teachers.

A2: Ability

Develop the ability/skill needed to discover/innovate/create, as demonstrated by students possessing critical thinking skills to assess ideas, acquiring research skills, synthesizing knowledge across disciplines or applying academic knowledge to self-life problems.

A3: Accomplishments

Demonstrate accomplishment of discovery/innovation/creativity through producing /constructing creative works/new artefacts, effective solutions to real-life problems or new processes.

# **3.** Teaching and Learning Activities (TLAs)

| TLA               | Brief Description  | CILO No. |   |                   | Hours/week (if |
|-------------------|--|----------|---|-------------------|----------------|
|                   |  | 1        | 2 | 3                 | applicable)    |
| Lecture           | Explain some of the key issues relevant to academic skills |          |   |                   | 1.5 hour/week  |
| In-class tasks    | Small exercises to complete and present                    |          |   |                   | 0.25 hour/week |
| Reflect on skills | Write as a short paragraph                                 |          |   | $\mathbf{\nabla}$ | 1 hour/week    |

## 4. Assessment Tasks/Activities (ATs)

| Assessment Tasks/Activities | CILO No. |   |   | Weighting* | Remarks                    |  |
|-----------------------------|----------|---|---|------------|----------------------------|--|
|                             | 1        | 2 | 3 |            |                            |  |
| Continuous Assessment: 100% |          |   |   |            |                            |  |
| Reflection                  |          |   |   | N/A        | Pass/Fail- no<br>weighting |  |
| In class participation      |          |   |   | N/A        | Pass/Fail- no<br>weighting |  |
| Examination: 0%             |          |   |   |            |                            |  |

## 5. Assessment Rubrics

| Assessment Task*                           | Criterion  | Pass                          | Fail                            |
|--|--|-------------------------------|---------------------------------|
| 1. Short reflective reports on all classes | Student is able to reflect on the relevance of communication in their own specialist discipline  | Adequate reflection           | Inadequate reflection           |
| 2.In-class participation                   | Student is able to confidently present<br>research topic and findings in a<br>rational manner, and is able to provide<br>constructive comments to others | attendance at >80% of classes | Fails to attend >80% of classes |

\*As this is a pass-fail course students must pass both assessment tasks

#### Part III Other Information

#### 1. Keyword Syllabus

Nil

#### 2. Reading List

# 2.1 Compulsory Readings

1. A range of on-line materials

# 2.2 Additional Readings

Lecture notes and the references included in the lecture notes
