

SM6310: INDEPENDENT STUDY II

Effective Term

Semester B 2024/25

Part I Course Overview

Course Title

Independent Study II

Subject Code

SM - School of Creative Media

Course Number

6310

Academic Unit

School of Creative Media (SM)

College/School

School of Creative Media (SM)

Course Duration

One Semester

Credit Units

3

Level

P5, P6 - Postgraduate Degree

Medium of Instruction

English

Medium of Assessment

English

Prerequisites

Nil

Precursors

Nil

Equivalent Courses

Nil

Exclusive Courses

Nil

Part II Course Details

Abstract

This course aims to give students the opportunity to explore topics of personal interest in media history, theory, criticism, and practice under the supervision of an academic staff member. Independent study projects provide a means for students

to investigate topics that are relevant to their studies but are not covered within the programme's set curriculum. They also allow students to extend their examination of topics introduced other classes.

Course Intended Learning Outcomes (CILOs)

CILOs		Weighting (if app.)	DEC-A1	DEC-A2	DEC-A3
1	Describe and apply key concepts and terminology to the analysis of a topic relevant to the field		x	x	x
2	Conceptualize and create a project of personal interest that is also relevant to the field		x	x	x

A1: Attitude

Develop an attitude of discovery/innovation/creativity, as demonstrated by students possessing a strong sense of curiosity, asking questions actively, challenging assumptions or engaging in inquiry together with teachers.

A2: Ability

Develop the ability/skill needed to discover/innovate/create, as demonstrated by students possessing critical thinking skills to assess ideas, acquiring research skills, synthesizing knowledge across disciplines or applying academic knowledge to real-life problems.

A3: Accomplishments

Demonstrate accomplishment of discovery/innovation/creativity through producing /constructing creative works/new artefacts, effective solutions to real-life problems or new processes.

Learning and Teaching Activities (LTAs)

LTAs		Brief Description	CILO No.	Hours/week (if applicable)
1	No fixed TLA	These activities are determined by the nature of the project, and are part of the initial agreement between the student and the project adviser.	1	
2		Activities normally will involve regular meetings between the student and the adviser.	2	

Assessment Tasks / Activities (ATs)

ATs		CILO No.	Weighting (%)	Remarks (e.g. Parameter for GenAI use)
1	1.1 The project's end result is determined by the nature of the investigation. 1.2 The project outcome normally takes the form of a substantial written essay, including full citations and bibliography. Under certain circumstances, the outcome may take the form of a script or other creative writing project, or a creative project involving the use of one or more of the media technologies available to SCM students. Some combination of two or more of these submission formats is also possible.	1, 2	100	the weighting of specific tasks depends on the nature of the project and the agreement between the student and the adviser. There is no standard arrangement.

Continuous Assessment (%)

Assessment Rubrics (AR)**Assessment Task**

Research-based Project (for students admitted before Semester A 2022/23 and in Semester A 2024/25 & thereafter)

Criterion

Students should demonstrate a postgraduate-level ability to undertake independent research through the application of relevant knowledge and skills, develop coherent and significant research problems, and carry out that research through well-organized argument and analysis.

Excellent

(A+, A, A-) - Excellent grasp of materials, ability to explain key concepts, assumptions, and debates, demonstrating sound knowledge of the field

- Rich content, exceptional ability to integrate various resources into primary and secondary levels based on demand
- Design and conduct research which is firmly built on thorough knowledge of existing theoretical frameworks
- Evaluative judgments about existing research and demonstrate application of strong critical thinking skills
- Strong ability to approach a text or a theme using a variety of theories and analytical tools
- Strong organization of research findings with effective organization and procedural clarity at the same time demonstrating the importance of the process
- Insightful suggestion of how the research findings may lead to future research

Good

(B+, B, B-) - Firm grasp of materials, ability to explain key concepts and assumptions

- Adequate content, strong ability to integrate various resources into primary and secondary levels based on demand

- Design and conduct research which is built on thorough knowledge of existing theoretical frameworks
- Appropriate judgments about existing research and demonstrate application of critical thinking skills
- Ability to approach a text or a theme using a variety of theories and analytical tools

Fair

(C+, C, C-) - Comprehensive grasp of materials, able to explain key concepts

- Adequate content, fair ability to integrate various resources into primary and secondary levels based on demand
- Design and conduct research which is built on knowledge of theoretical frameworks
- Appropriate judgments about existing research
- Weak ability to approach a text or a theme using a variety of theories and analytical tools

Marginal

(D) - Loose grasp of materials, cannot explain key concepts

- Weak content, with primary and secondary levels
- Design and conduct research which is appropriate for the research objective
- Marginal judgments about existing research
- Poor ability to approach a text or a theme using a variety of theories and analytical tools

Failure

(F) - Poor grasp of materials

- Inadequate content, without primary and secondary levels
- Fail to design and conduct research which is appropriate for the research objective
- Fail to make reasonable judgments about existing research
- Fail to approach a text or a theme using a variety of theories and analytical tools

Assessment Task

Research-based Project (for students admitted from Semester A 2022/23 to Summer Term 2024)

Criterion

Students should demonstrate a postgraduate-level ability to undertake independent research through the application of relevant knowledge and skills, develop coherent and significant research problems, and carry out that research through well-organized argument and analysis.

Good

(A+, A, A-) Excellent postgraduate-level ability to undertake independent research through the application of relevant knowledge and skills, develop coherent and significant research problems, and carry out that research through well-organized argument and analysis.

Fair

(B+, B,) Good postgraduate-level ability to undertake independent research through the application of relevant knowledge and skills, develop coherent and significant research problems, and carry out that research through well-organized argument and analysis.

Marginal

(B-, C+, C) Marginal postgraduate-level ability to undertake independent research through the application of relevant knowledge and skills, develop coherent and significant research problems, and carry out that research through well-organized argument and analysis.

Failure

(F) Lack of postgraduate-level ability to undertake independent research through the application of relevant knowledge and skills, develop coherent and significant research problems, and carry out that research through well-organized argument and analysis.

Part III Other Information

Keyword Syllabus

There is no set syllabus for an independent study project. Instead, the subject is organized through principles of guided mentoring, one-on-one discussion and instruction, and collaboration between the student and the faculty adviser.

Normally, an independent study project is initiated by the student, who develops an idea for a research topic or project, and then approaches a member of the SCM teaching staff to request that they serve as adviser.

The student and faculty member agree on the terms of the project (i.e., specific topic or theme, work schedule and process, meeting schedule, expected end result), and then consult regularly concerning the project over the course of the semester.

The project's end result is determined by the nature of the investigation. It may consist of a written essay, a script or other creative writing project, or a creative project involving the use of one or more of the media technologies available to SCM students.

The project is expected to be conceived and executed in its entirety over the course of the semester. However, proposals for projects requiring a longer period of time to complete may be considered.

Reading List

Compulsory Readings

Title	
1	All readings to be arranged through consultation between student and adviser

Additional Readings

Title	
1	Nil
