## Part II Course Details

### Abstract

This course delves into the intersection of curation and decentralisation techniques, exploring the impact of decentralisation technologies on the creation, dissemination, and reception of transactional art. Through this course, students will analyse the influence of decentralisation on curatorial practices, audience engagement, and the circulation, discussion, and appreciation of art between curators, artists, and their audience. The course encourages students to understand how curation is transformed by algorithmic models, such as deep learning, blockchain peer-to-peer protocols text-to-image generation. This course also explores the technologies associated with transactional curation, including selecting and presenting tokenised art through blockchain models and NFTs. Furthermore, students will learn how to establish curatorial protocols that examine decentralisation by involving algorithmic curatorial practices, drawing on theoretical and practical knowledge.

**Assessment Rubrics (AR)****Assessment Task**

Presentation of curatorial cases (for students admitted before Semester A 2022/23 and in Semester A 2024/25 & thereafter)

**Criterion**

This assessment will grade on content and fluency of presentation. Students should show their co-operation to conduct a well-organized presentation with their own argument and evidence from readings and notes. The threshold of 'discovery' lied in a student's self-initiatives to conduct additional research and to personalize theories for her/his personal daily experience.

**Excellent**

(A+, A, A-)

- Rich, informative content, excellent grasp of the material with in-depth and extensive knowledge of the subject matter
- Rigorous organization, coherent structure, and systematic exposition with a strong sense of narrative
- Superior presentation skills: distinct pronunciation, fluent expression and appropriate diction, exact time- management
- Critical analysis with insightful comments opening up new issues, or suggesting the ability to theorize

**Good**

(B+, B, B-)

- Adequate content with firm grasp of the material that informs the audience on a subject matter
- Reasonable organization, balanced structure and composition

- Good verbal communication: comprehensible pronunciation, fluent expression and diction, fair time- management

### **Fair**

(C+, C, C-)

- Below average content with below average grasp of the material that informs the audience on a subject matter
- Below average organization, unbalanced structure and composition
- Below average verbal communication: sometimes incomprehensible pronunciation, below average expression and diction, below average time- management

### **Marginal**

(D)

- Weak content, loose grasp of the general ideas with some knowledge of the subject matter
- Poor organization, structure and composition
- Poor presentation skills: marginal pronunciation, expression and diction, poor time- management

### **Failure**

(F)

- Inadequate content, fail to identify the general ideas with knowledge of the subject matter
- No organization, structure or/and composition
- Poor presentation skills: marginal pronunciation, expression and diction, minimal time- management

Curatorial plan (for students admitted before Semester A 2022/23 and in Semester A 2024/25 & thereafter)

### **Criterion**

The grade will be based on the argument's and the comment's rationality, clarity, and fluency. The ability of a student to negotiate a position that is well-informed, tenable, and based on personal understanding is the criterion for "discovery."
