1	Describe theoretical concepts in sociolinguistics such as language variation, code choice, speech community, identity, gender, code-switching, and world Englishes.		x		
2	Discuss and apply key issues and concepts through in-class participation and online exchanges.		x	x	
3	Research and analyze selected key issues and concepts in language and society in depth through comparing and contrasting different contexts.		x	x

A1: Attitude

Develop an attitude of discovery/innovation/creativity, as demonstrated by students possessing a strong sense of curiosity, asking questions actively, challenging assumptions or engaging in inquiry together with teachers.

A2: Ability

Develop the ability/skill needed to discover/innovate/create, as demonstrated by students possessing critical thinking skills to assess ideas, acquiring research skills, synthesizing knowledge across disciplines or applying academic knowledge to real-life problems.

A3: Accomplishments

Demonstrate accomplishment of discovery/innovation/creativity through producing /constructing creative works/new artefacts, effective solutions to real-life problems or new processes.

Learning and Teaching Activities (LTAs)

LTAs		Brief Description	CILO No.	Hours/week (if applicable)
1	1	Students will participate in interactive lectures, discussions, tasks, and activities. Students will learn to describe and evaluate sociolinguistic concepts relevant to the study of language use in different contexts (including language education contexts) through participating in interactive lectures and activities where those concepts are introduced, modelled, and illustrated.	1, 2	
2	2	Students will engage in discussions of required readings and selected articles to develop an in-depth understanding of sociolinguistic concepts relevant to the study of language use and language education.	1, 2	
3	3	Students will engage in group work to research and investigate a particular sociolinguistic issue of their choice. Specifically, students work in small teams to research a key concept of their choice related to language, education and society.	1, 3, 4	

Assessment Tasks / Activities (ATs)

	ATs	CILO No.	Weighting (%)	Remarks ("- for nil entry)	Allow Use of GenAI?
1	Class Participation	1, 2, 3, 4	20	Individual: Based on how frequently, actively, and constructively students participate. In-class activities, discussions and presentations measure students' ability to apply newly learned principles to real contexts and situations. Active participation in all classes, discussions, tasks, and activities. Students are assessed according to how actively they contribute to in-class discussions, tasks, and activities on course topics and readings, as well as how they lead in-class discussions. Active in-class participation requires verbal (and online) contributions.	Yes

2	Final Project	3, 4	50	Group work: Students will have the opportunity to apply their knowledge to critically analyze and evaluate authentic language data and other kinds of data. Students will apply analytical methods in their analysis. Students will also have the opportunity to identify and reflect on language, society, education, and identity.	No
3	In-class Test	1, 2, 3, 4	30	Individual: The test will be designed to test students' understanding of theoretical concepts from lectures and readings. It will also test students' application of knowledge.	No

Assessment Rubrics (AR)**Assessment Task**

Class Participation

Criterion

Active participation in and contributions to all in-class tasks, activities, discussions.

Excellent

(A+, A, A-) Actively and verbally participated in and contributed to all in-class tasks, activities, and discussions. An excellent record of attendance and participation. Attended all classes punctually, always participated actively and constructively in class and group activities.

Good

(B+, B, B-) Actively participated in and contributed to almost all in-class tasks, activities, and discussions. Satisfactory attendance and punctuality. Generally participated actively and constructively in class and group activities.

Fair

(C+, C, C-) Adequately participated in and contributed to most in-class tasks, activities, and discussions. Satisfactory attendance and punctuality. Frequently participated actively and constructively in class and group activities.

Marginal

(D) Marginally participated in and contributed to in-class tasks, activities, and discussions. Attendance and punctuality not fully satisfactory and/or participation in class and group activities was inconsistent.

Failure

(F) Failed to participate in and contribute to in-class tasks, activities, and discussions. Attendance and punctuality were unsatisfactory. Did not meaningfully engage with class and group activities.

Assessment Task

Final Project

Criterion

Written paper on a topic that presents data collected and analyzed using a sociolinguistic perspective.

Excellent

(A+, A, A-) Analyzed and presented a sociolinguistic issue very clearly and insightfully, applying the theoretical framework, accurately giving evidence from data collected, and synthesizing points into a coherent argument expressed in clear and accurate English and within the word limit.

Good

(B+, B, B-) Analyzed and presented a sociolinguistic issue clearly, applying the theoretical framework fairly accurately giving evidence from data collected, and synthesizing points into a relatively coherent argument expressed in clear and mostly accurate English and within the word limit.

Fair

(C+, C, C-) There may be some inaccuracies in understanding the sociolinguistic issue under investigation. Sufficient evidence may not be provided. The paper may lack focus or be poorly argued. There may be problems with the organization or grammar of the paper. The paper may exceed the word limit.

Marginal

(D) There are serious flaws and/or inaccuracies in understanding the sociolinguistic issue under investigation. Sufficient evidence is not provided. The paper lacks focus or is poorly argued. There are serious problems with the organization or grammar of the paper. The paper is incomplete or incomprehensible due to a large number of language inaccuracies.

Failure
