Abstract

The workshop will be run as multiple sharing sessions all around the year. The sessions will be held in the mornings of the Saturdays when the DBA students have their regular classes in the afternoon. These sessions will be organized on a regular basis and the presentations in each session will be announced in advance. Each student should make at least one presentation and participate in four other sharing sessions throughout their DBA studies. This means that they will attend to at least five such sessions, one as a presenter and four as a participant.

This workshop will give the DBA students an opportunity to come back to the campus on a regular basis and interact with other students by either presenting their research or participating in the sharing sessions. And, it will help them improve their research.
