

City University of Hong Kong

Department of Physics

**Biomedical Physics Stream for Bachelor of Science in Applied Physics**

*Applicable to students admitted to the major in 2017/18 and before*

<b>15 Credit Units from the following courses</b>		
<b>Course Code</b>	<b>Course Title</b>	<b>Credit Units</b>
AP3206	Nuclear Radiation and Detection	3
AP3240#	Biological Physics	3
AP4127	Smart Sensors: From Engineering to Applications	3
AP4216	Project (Biomedical Physics related)	3
AP4217	Dissertation (Biomedical Physics related)	6
AP4232	Radiotherapy Physics	3
AP4233	Imaging Physics	3
AP4273	Special Topics in Physics (if related to Biomedical Physics)	3
AP4274	Radiation Biophysics	3
AP4275	Radiological Physics and Dosimetry	3
AP4283	Medical Physics I	3
AP4284#	Medical Physics II	3
<i>Not in the Applied Physics major, and students can take this course as a free elective course</i>		
AP3230	Nuclear Radiation and Measurements	3

# Phased out in 2018/19

21 September 2018
