

ITC STEM Internship Scheme 2021-22

Organization: Department of Physics, City University of Hong Kong

Position: Intern

Job Description

- Students will assist with processing immunohistochemistry and immunocytochemistry. These processed images will be used to train image translation neural networks that can perform immunostaining with a computer, rather than using traditional antibody immunostains.

Internship Period: Summer 2022

Total number of vacancies: 4

Application Procedures

Interested students should submit your application directly to the employer with your CV at your earliest convenience.

Application: Dr. Condon Lau at condon.lau@cityu.edu.hk
