

Who we are and What are the objectives of the mentorship program

Financial Services Evangelistic Fellowship (FSEF) is a registered Christian charitable organization serving the financial services industry practitioners for more than 40 years in Hong Kong. We are launching a mentorship program with a view to nurturing young professionals and assisting graduates who want to pursue a career in the financial services industry. **This program is free.**

How the mentorship program works

In addition to learning from career seminars which are for the public, each mentee will be joining a small group for career exploration and discussion and have individual consultation with the mentors at least quarterly

There are limited places and the accepted mentees will be committed to a 10-month program, **starting in Oct 2025**, attending the seminars and small group discussion
