Congratulations to Dr. He Tianxiang

Dr. He Tianxiang was invited to join the Academic Committee of Centre for Ethics of Science and Technology (CEST) of the Beijing Institute for Stem Cell and Regenerative Medicine (BISCRM) on 15th May, 2021. BISCRM is a collaborative project between Beijing city and the Chinese Academy of Sciences (CAS) Institute for Stem Cell and Regeneration (ISCR). The Centre is a new initiative of CAS, which aims to promote the research of ethics of science in China, and help to boost the development of national regulative framework and capacity of ethics of science and technology. The Academic Committee consists of renowned scholars from various fields such as natural sciences, philosophy, social science, ethics, law, and management. There will be future research cooperations on various interdisciplinary projects among institutions. The appointment will be three years.
