Welcome Messages from Dr. Wilson Lam, Director of Student Residence

Congratulations to all CityU residents onboard! Let me navigate you through our residence life, where continuous learning and development through multicultural experience is our hallmark:

CityU Student Residence is a miniature of an internationalized society that welcomes 3,700 residents from over 50 countries. More than a home for all residents, it is a melting pot of creative individuals who could always experiment and outshine through a variety of platforms we offer. Together, we create endless possibilities.

Our hall community values your health and wellbeing as the top priority. Under COVID-19, we will observe the latest policy and arrange corresponding online or face-to-face events/activities to enrich your residential experience. For those who may be away from family for the very first time, you are highly recommended to join Hall Inductions and other social events where you can interact with other residents who can be your camaraderie and even lifelong friends in the years to come.

Our Residence Masters (RM) and Residence Tutors (RT) are ready in hall to give you needed advice and pastoral care at all times. Feel free to knock the door of your floor RT and hallmates to make new friends and enjoy your hall life in this robust community that you will not only be a part of - but be proud of!
